which was prepositioned at a forward site in Laos was launched to recover survivors. It entered the same area where the four aircraft had been downed, approximately 40 miles west of Hanoi, and was led to the downed pilot by RESCAP aircraft. The survivor was on a heavily wooded slope and marked his position with red smoke. The helicopter was forced to hover at approximately 80 feet above the pilot due to the high trees. After the pilot had put on the hoist harness and was raised 10 feet a hoist malfunction occurred. The crew was unable to lift the pilot the remaining 70 feet manually. The crew decided a landing would have to be made in order to rescue the survivor, so they flew to a rice paddy $\frac{1}{2}$ mile away with the survivor dangling 70 feet below the helicopter. Immediately after landing and recovering the survivor the helicopter came under automatic weapons fire and received 3 hits, one of which missed the fuel tanks by 6 inches. The remainder of the return journey was uneventful. CH-3C aircraft commander was Capt George C. Martin, and rescued F-105 pilot was Capt Frank Tullo.

(5) (S) 38-761-28 Jul 65. A USN A-4E was downed over Laos. Two HH-43 helicopters were scrambled from Nakhon Phanom to make the pickup. The downed pilot was located by A-1E RESCAP aircraft which led the helicopters to the scene. The A-1E aircraft had to conduct continuing attacks against hostile troops that were attempting to reach the downed pilot. As the helicopter moved in for the pickup the A-1E's laid down covering fire. The survivor was located on the side of a hill, and in order for the helicopter to maneuver over the pilot to effect the pickup it was necessary to have the blades come within inches of the side of the mountain. The pickup was successful and an uneventful flight back to Nakhon Phanom, Thailand followed. The aircraft commander of the HH-43 making the pickup was 1Lt Walter F Turk, and the survivor was LT JC Townsend R. Grant.

(6) (U) 38-814-11 Aug 65. An HU-16 on precautionary orbit over the Gulf of Tonkin received a call on guard channel from an F-105 that was hit coming off a strike in North Vietnam. The F-105 pilot declared he was going to bail out. The HU-16 requested a homing steer from the distressed aircraft's wingman, and as he turned to the heading, made a visual sighting on the descending parachute. The HU-16 jettisoned wing tanks and was on final approach as the survivor landed in the water. The pickup was made approximately 14 miles off the shore of North Vietnam. The HU-16 aircraft commander, Major Frederick C. Wisner, made a normal water take off and delivered the survivor, to DaNang AB, RVN.

(7) (U) 38-822-13 Aug 65. Lt Robert J Hyland, USNR, was piloting an A-1H which was hit by flak over North Vietnam. His wingman contacted the HU-16 on precautionary orbit and advised it of the impending bailout. The A-1H was able to make the coast and the pilot bailed out over the sea. His wingman directed the HU-16 to the incident site. The HU-16 made a water landing, recovered the survivor, and delivered him to DaNang AB, RVN. The HU-16 aircraft commander was Capt Richard F. Reichardt.
