

24Aug65 2nd Save by JG

The below picture is believed to be the **first** picture of a Jolly Green rescue crew and the downed pilot. It was made on 24 August 1965 by a CH-3C assigned to NKP and the pickup was made in NVN. More can be read on the "1st CH-3 to SEA" page in this section. This particular "save" was the **second** combat save by the Jolly Greens in SEA.

The CH-3C flight crew was Phil Stambaugh (P) in the door, Left to Right George Martin (CP), George Thayer (PJ), James Armenia (HM), Dean Pogreba (F-105 Pilot), and Francis Hill (HM)
