~~SECRET~~

20. DET PROV FIRST-1-14 Nov 65 (U). Capt Pfadenhauer, the pilot of a HH-43B, out on a base support mission, noticed a crowd on the beach waving and trying to attract his attention. After landing he learned that an airman had been pulled out of the water, and was being administered artificial respiration. Leaving his two crewmembers, 1st Lt Theodore S. Cochran, and TSgt Eddie Hagerman, to take over the first aid treatment of the still unconscious victim, the pilot flew to the base to pick up a doctor. By the time he returned to the incident scene with the doctor, the two crewmembers had revived the victim. Upon the doctor's recommendation they evacuated the survivor directly to the US Army hospital at Nha Trang. 22

21. 38ARS-1138-17 Nov 65 (U). The P8E piloted by Commander Robert Chew Jr, was hit by ground fire while running on a target in North Vietnam. He turned out to sea and ejected off the coast. The HU-16 piloted by Capt David Richardson had been relieved at the orbit station and was proceeding to Danang when he monitored the emergency call. He was vectored into the survivors position by Commander Chew's wingman. Following the pick up the survivor was taken to Danang AB.

22. 38ARS-1141-18 Nov 65 (S). Captain Larry Mahaffey's F-105 was hit by ground fire over North Vietnam. He turned towards the mountains and ejected when he lost control of the aircraft. He landed in trees 100 feet high, and made no attempt to reach the ground. The HC-34 on prepositioned orbit headed toward the bail out scene and two HH-43's were scrambled from Nakhon Phanom, Thailand. The downed pilot made contact with RESCAP aircraft utilizing his URC-10 radio. The helicopters had difficulty finding the pilot due to the dense foliage, but the survivor fired several pen flares which were spotted by the helicopter crew. The forest penetrator was lowered, and the uninjured pilot recovered and taken to Nakhon Phanom by the HH-43 pilot, Capt John B. Reiderick. 23

23. DET 7-671-21 Nov 65 (U). On 21 Nov 65 a C-123 crashed one mile short of the runway at Danang AB. The LBR crew scrambled, and were directed into the crash scene by the control tower operator. The landing at the incident sight was hampered by gusty winds, heavy rain, and darkness. It was necessary for the helicopters to land in a mine field to pick up two of the most seriously injured crewmembers. The flight to the hospital was a busy one for the rescue technician, A1C Michael D. Leonard, as both survivors, A1C Michael J. Kelly and A1C Kirby R. Whellern, were in shock. A1C Kelly's injuries were so painful that he had to be held down while the recusitube was held in his mouth. The hospital was unlighted and obscured by clouds and rain, but a successful landing was made. The HH-43F crew commanded by Capt Alva C. Graham had indeed surmounted many obstacles in saving the lives of the two survivors.

DECLASSIFIED

31ARSq Hist, Oct - Dec 65

On 17 November 1965, an HU-16 on a combat support orbit mission while deployed in SEA received a distress call that a U.S. Navy F-8 pilot ejected when his aircraft was disabled by enemy fire. The HU-16 crew overheard radio transmissions from the F-8 pilot indicating that his aircraft was damaged and low on fuel. Having made visual contact, the HU-16 began following the aircraft and was within 14 miles at the time of ejection. The HU-16 was on the scene in just four minutes, landed under adverse sea conditions, and rescued the survivor from hostile territorial waters. Crew: RCC Capt David K. Richardson, CP Lt David W. Haines, N Lt Jack O. Slocombe, FM SSgt William J. Reid, RO SSgt Frank J. Trombino (33rd ARS), PJ TSgt William V. Vargas.

(2) Other missions of special interest.

(a) Helicopter Mission 31-651-25 October 1965. Notified by primary crash phone at 1409L that an F-100 had flamed out. Seconds later the pilot ejected. The alert HH-43 was airborne at 1410L and arrived at the crash site eight minutes later. Unfortunately the pilot had ejected too low and his chute failed to deploy. The deceased was returned to Clark Hospital. Crew: RCC Lt William F. Austin, CP Capt David J. Wege, HM ALC James W. Burns, MT SSgt Donald J. Glassford (USAF Hospital Clark).

(b) HU-16 Air Evacuation Mission 31-669-03 November 1965. Received notification from 13th Air Force Joint Search and Rescue Center (13JSARC) that a U.S. female citizen suffering from an acute intestinal ailment required emergency airlift from Baguio, 75 nautical miles north of Clark, to Clark Air Base Hospital. An HU-16 was airborne at 0949L, landed at Baguio and picked up the patient. An hour later the HU-16 crew delivered the patient to a waiting ambulance for transfer to the hospital. Crew: RCC Major Kenneth L. Shook, CP Capt Harold K. Pike, FS Capt Thurman E. Tobias (USAF Hospital Clark), FM SSgt William J. Reid, PJ TSgt William V. Vargas.

(c) Helicopter Air Evacuation Mission 31-670-20 November 1965. Received notification from 13JSARC that a U.S. Marine who was seriously wounded in SEA required emergency airlift from the Clark AB Hospital to the compression chamber at Subic Bay Naval Base. The patient had contracted gaseous gangrene and his condition had become critical. Just thirty minutes after picking the patient up at Clark Hospital the helicopter landed at Cubi Point NAS where the Marine was transferred to a waiting ambulance. This flight was conducted at night over jungle and mountainous terrain. Crew: RCC Capt Marvin L. Palmer, CP Capt David J. Wege, HM A3C Stanley Y. Asato, MT SSgt Donald J. Glassford (USAF Hospital Clark).

(d) HU-16 Air Evacuation Mission 31-671-28 November 1965. Received notification from Manila RCC through 13JSARC that a Philippine National suffering from acute nephritis required air evacuation from remote Pandan Village
