19 Took off from Udorn and flew
North of Dien Bien Phu to penetrate
and search for RF101 pilot and

19 North Viet 1 km and on the
4th one they came after us.
We went straight down to
hide in the mountain and
19 the clouds that kept us
from going in farther. Mig
lap chased them off and
got one with a sidewinder.
19 This was the 1st time
the migs came after the
Jolly Greens and the Sandys
