

MARCH 4

J. B's - Sobey, Seacey
NH-43 also - Duffey

J. B's scrambled out of Q.T. for
a UNAF H-34 that went down
in a bay north of DaNang. By
the time we got there Reduc's (HH-43's)
were already there. Hackney had
everything under control - he was on a
boat and helping recover the bodies.

Later we got a call for OI-E down.
Found it down O.K., but came to
find out it had been there 3 days and the
pilot already recovered.
