

MAY 30

DSF

Jollies made two pickups
north of 17th. Sohey got one
and White the other.

This one was off a destroyer.
He was seriously wounded and
needed immediate medical aid.

I went down boat to ship and
got a briefing from Ship's M.D. as
to what had been done for him.

And litter lowered from Chopped and
tied him in it and sent him

up. As I was getting on penetrator
(hoist) the Doc came running
up with a plastic bag full of fresh
ice cream - a treat to say the
least - So after getting on the Jolly
Green I dropped them the latest
issue of "Playboy", Intercourse
relationships ??? !!
