1. (U) This report is submitted in accordance with AFPM 55-2/3 ABRGP SUT 1 dated 15 June 1967.

2. (C) I was airborne in Jolly Green 10 conducting a local training airborne alert flight, when Queen notified me of a pending medical evacuation 240/12 from Channel 37. Time of notification was 0422Z. I arrived in the area at 0450Z and was in contact with Deadlock Med Evac. The ground team, Construe 140, notified me on FM that they had four WIA and that one was severe. I jettisoned fuel and drop tanks and proceeded into a hover at 0457Z. The first WIA came up in a litter, the other three on the Forrest penetrator, two at a time, and one at a time. With all four aboard I departed at 0500Z for HSI arriving there at 0517Z. I was WIA'd and arrived Channel 37 at 0525Z.

3. (C) No difficulties were encountered enroute. Weather was 3000' overcast and heavy rain showers. As the pickup area was 2500' this gave us a 500' ceiling. During the hover the rainshowers moved directly over us and visibility was reduced to 20'. Upon departing the hover I went into immediate IM conditions.

4. (C) The WIA's were: J.P. GRIM, L/CPL USMC; H.J. MILLER, L/CPL USMC; J.M. DRUCKER, L/CPL, USMC; and J. HURDOK, PFC, USMC.
